

Kentz (Pty) Ltd

Engineers & Constructors®

Screamer Telecoms

13 July 2012

To Whom It May Concern

Thanks to Screamer Telecoms for providing a stable and reliable service to a number of our hard to reach sites Kentz especially in areas that other major Telco's and service providers couldn't. We appreciate your turn around times on orders, your price competitiveness for like for like services and the ability to provide public IP's.

Kentz is a large International organisation and cross border throughput is vital to us. Screamer have proven their low contention ratio on International and is one of the best we have experienced and very content with.

It is a pleasure dealing with your organisation and we look forward to grow our footprint with you.

Yours Faithfully

Francois Joubert
